Lulaluli

Lulaluli is a simple software application that can be used in order to help individuals navigate the Internet, and visit several websites in the same time. The perks of portability: This utility is portable, which means that the installation process is not a must. Furthermore, it means that the Windows registry, Start menu/screen and hard drive are not going to be updated with new entries without your approval. It is also noteworthy that if you place the program files to a removable storage device, such as a pen drive, it is possible to run it on the breeze, on any PC you have been granted access to. Easy-to-use interface and minimal options: The UI you come face to face with can only de characterized by simplicity, as it only contains an address bar, back, forward, home and options buttons, and a panel to view the contents of the web page. It becomes quite clear that all types of users can easily get around it, without experiencing difficulties. This software app also contains some buttons which enable you to split the main screen vertically and horizontally, so that you can access multiple websites in the same time. Aside from that, you can block or unblock pop-ups, open a link in a different view and delete the address. CPU and memory usage is minimal and thus, it is not going to hinder the computer's performance and you can run it alongside other tools without facing problems. Bottom line: To conclude, Lulaluli is a pretty efficient piece of software and comes up with a different method of launching several websites at a time therefore, replacing the tabs. The environment is simple-to-handle, yet in our tests, it did not present such a good response time.North Korea's Kim Yo Jong, the younger sister of dictator Kim Jong Un, is seen as one of the most important players in the region because of her pivotal role in the family. The 50-year-old sister of North Korean leader Kim Jong Un has arrived in New York to take part in the annual United Nations General Assembly, South Korea's Yonhap news agency reported on Friday. "North Korea has a representative for the top ruling party, Kim Yo Jong, and her visit comes amid high tension over the possible U.S. military strike against North Korea and her high-level participation in this year's Nuclear Non-Proliferation Treaty negotiations,"

What's New In?

Lulaluli (Lulu for short) is a simple utility that can be used to launch several websites at a time. Lulaluli is meant to enable users to navigate the web, and open several websites in the same time.
